TECHNICAL DATA:

1190 Instant-Flow® tankless heater is manufactured by Chronomite Laboratories, Inc. Water is heated only when water flows. Waterways are Celcon and heating coils are stainless steel. Heater provides a 49 degree temperature rise at 0.5 GPM flow. Electrical characteristics are 120 Volts AC, 30 Amps, 60 Hz. See models below if a 49 degree temperature rise could produce hot water over 120 degrees.

1191 Instant-Flow Micro® tankless heater is similar to model 1190 and will provide up to a 49 degree temperature rise at 0.5 GPM flow. A factory preset microprocessor limits output temperature to 120 degrees for use with hot and cold faucets. Electrical characteristics are 120 Volts AC, 30 Amps, 60 Hz.

1192 Instant-Flow Micro® tankless heater is similar to model 1191. A factory preset microprocessor limits output temperature to 104 degrees for use with sensor or single temperature faucets. Electrical characteristics are 120 Volts AC, 30 Amps, 60 Hz.

Heaters are listed by Underwriters Laboratories, Inc. A 0.5 GPM inline flow control is provided for use with faucets without a flow control.

MODEL NUMBER:

❏ 1190   Instant Electric Water Heater

❏ 1191   Instant Electric Water Heater

❏ 1192   Instant Electric Water Heater
