

HYDRANTS

Post Hydrant

MODEL M-ESH175

(FORMERLY M-ESHSC175)

3/4" FREEZE RESISTANT TRIMLINE POST HYDRANT WITH SHUT-OFF, HEAVY DUTY

STANDARD FEATURES

Model M-ESH175 delivers year-round service outside or in unheated buildings. To provide freeze resistant functionality, the control valve is located below the frost line. The spring-loaded handle raises and lowers the internal supply line assembly, controlling the valve. The internal supply column is evacuated through drainage ports in the bottom and an integral internal shut-off valve ensures easy maintenance. This trimline design complements any setting. The hydrant must be operated fully "ON."

SUGGESTED SPECIFICATIONS

Hydrant shall be Murdock-Super Secur model M-ESH175. Unit shall be capable of year-round use in freezing weather and shall include an integral shut-off valve.

Unit shall extend below grade level so that centerline of supply inlet is positioned at or below frost line. Unit shall include an integral shut-off valve. Inlet shall have a threaded connection.

Water shall be gravity-evacuated from inner supply column when valve is shut off.

Valve shall be operated by lever handle spring-loaded for closure. Housing shall be cast aluminum, finished with a heavy grade of oil-based green enamel. Handle shall be an aluminum-bronze casting. All castings shall be manufactured in the USA and comply with ARRA standards, to include machining, assembly and painting.

Inner supply assembly shall incorporate solid-brass castings. All solid-brass castings shall conform to ASTM standards B61 and B62. Lead-free castings are used in all waterways.

Outer casings and inner supply line shall be galvanized-steel pipe.

Nozzle shall be solid brass casting, threaded for 3/4" hose connection.

Standard Model: M-ESH175
