EMERGENCY DRENCH EQUIPMENT

MURDOCK SAFETY offers many features as standard, preassembled to ensure products work the first time, every time:

- Highly visible yellow, UV protected, polyethylene tank with no moving parts.
- Eyewash heads provide a minimum of 0.4 gpm flow rate for 15 minutes and include a yellow eyewash pull strap for ease of activation.
- Pull strap caps form an airtight seal that prevents dust and debris from collecting on the eyewash heads.
- Heavy-duty stainless steel wall bracket for wall mounting make removal and remounting easy.
- Integral handles on the top and sides, wide fill opening with threaded cap, highly visible identification/operation label and inspection maintenance tag.
- One container of concentrated water preservative with each eyewash station to increase the storage life of the water solution for up to six months.

Represented by:

PORTABLE GRAVITY-FED EYEWASH STATION

Model #SOP50

Made in the USA 

The portable eyewash station is ideal for low-traffic or remote areas where a person's eyes may be exposed to injurious or corrosive materials and there is no immediately-available supply of potable water. The eyewash station does not require plumbing and can be wall mounted or may be placed on a countertop or other suitable flat surface. Locations such as gasoline stations, mechanical repair shops, and janitorial supply areas all benefit from an economical and convenient portable eyewash station.

WHY SPECIFY?

- **HIGH-VISIBILITY YELLOW POWDER COATING** Ensures the ability to locate the equipment in time of need and provides additional corrosion protection
- **PRE-ASSEMBLED PRODUCTS** Reduce labor costs and the potential for faulty installation
- **INLINE STRAINER** For increased protection against harmful particulates in the water supply. Removes the slightest possibility of debris failure or clogged heads on startup
- **STAINLESS STEEL COMPONENTS** Are employed wherever possible to increase durability and corrosion protection and protect against excessive force and shearing
- **EXPERIENCE** With over 150 years of history as a plumbing equipment manufacturer, Murdock Safety is built with the highest quality standards realized today
- **CERTIFICATION to ANSI Z358.1** With a variety of options for barrier-free ADA compliance

Murdock Safety offers the most features as standard on every model, because our units must work the first time, every time.
